

A glowing lightbulb is the central focus, surrounded by a vibrant explosion of colorful paint splatters and brushstrokes in shades of blue, yellow, red, and green. The background is a textured, greyish-blue surface. The overall composition is dynamic and artistic, symbolizing creativity and innovation.

A WORLD WHERE WORKPLACES

are environments that advance human potential and happiness

The Field is an organisational development company with expertise in cognitive psychology and neuroscience.

After 15 years of working with literally thousands of leaders and teams, ranging from multinationals, charities, private companies and being a preferred supplier of leadership development in government organisations, we have created a repertoire of experience as to what creates engaged, happy and future facing workplace cultures.

In our work at The Field we have noticed that there are some recurring challenges that arise in modern workplace cultures:

Low self awareness, lack of collaboration and inclusion, and a lack of diversity of thinking for the future.

Lack of time, money and resources to develop people skills at all levels within the organisation.

A lack of embedding of culture change behaviours in order for them to last.

Simple Yet Revolutionary

THE EXTRAORDINARY MINDS PROGRAM
is a multi-faceted initiative, designed with
the intention of creating extraordinary
sustainable workplace cultures.

THREE IMPORTANT ASPECTS OF GREAT DEVELOPMENT OF PEOPLE:

Extraordinary Awareness

Extraordinary Connection

Extraordinary Thinking

Who is The Extraordinary Minds Program for?

Leadership development is so critical, however often leaders attend development programs and struggle to apply the learnings to themselves, let alone impart the development to their people. This program is first and foremost for leaders however it starts with as many people from the organisation as possible, and has the potential for every team member to share the learning with leaders. It has been designed this way because ultimately, all great development in organisations should take everyone on the journey...

So here is what the full Extraordinary Minds Program looks like!

- The EPIC experience (see home page) with as many people as we can bring together from your organisation involved in change initiatives
- A mind-blowing and advanced facilitated leadership program (4 days spread over time)
- A world class online learning program designed specifically for evolving conscious workplace cultures (critical part of the leadership program and available to ALL employees)
- Thought partnership with The Field to embed and create internal capability going forward!

It's more than a program...

It's a movement

ABOUT US

Our reputation is that of incredible facilitation, coaching, design and cutting edge approaches. We ourselves aim for extraordinary, and we have the collective skills, expertise and sense of purpose to persistently become this. We believe human beings are wildly colourful, creative and wired for connection, and we are on a mission to develop extraordinary potential, one organisation at a time...
